

How to Access & Download The BLAZE Comedy Hypnosis Shows FREE Stuff! & Promotional Materials

Please read this entire page because it gives you important information about how you can best access & best use the promotional materials available from us for your hypnosis show with **Comedy Hypnotist BLAZE—The Hottest & Only Name for Quality Hypnotic Entertainment in America™**

Thank you in advance for visiting us here and for your business.

We truly welcome and appreciate every opportunity to bring the wonder and excitement of professional stage hypnosis entertainment with Comedy Hypnotist BLAZE to your audience.

You want a fun, successful event. So do we. We can help you promote BLAZE's performance using any of the various advertising materials created and made available here for you to download and use.

If you intend to print one-off copies of these promotional materials using your computer's printer, then choose the files formatted in Adobe Acrobat and show the (.PDF) extension.

Adobe Acrobat / Macromedia FlashPaper Formats

Use Adobe if you intend to print the materials on your computer's printer. Be sure your printer can print high-resolution graphics on quality paper. And if you intend to print the show posters, your printer must be able to print 11 by 17 inch paper.

Why Use Adobe?

Adobe is a universal publishing format which anyone can read on a PC and locally using the FREE Adobe Acrobat program available for download from Adobe.

By the way, a PDF file is compressed. It becomes a smaller than the original file, while retaining the quality of the original. And its smaller size facilitates sending by email.

By the way viewing any of these materials requires at least the free Adobe Acrobat Reader installed on your computer. Most computers have it because most people are familiar with and use PDFs. If you happen not have it installed on your, these files won't open. You'll have to download and install the FREE Adobe Reader [here](#).

Get Yours Printed Fast & Conveniently! Use the Kinko's File Prep format for Quick & Easy Local Printing Near You.

You can get your copies printed professionally, reliably in the appropriate size, colors and resolution at the FedEx-owned chain, Kinko's nearest you. To that end, go to this [link](#), download Kinko's "FREE File Prep Tool" – a handy software converter utility if you don't have Adobe, install the tool, and then easily convert any file we offer into the desired file format for printing at the Kinko's near you.

You can even get it all done right [online](#)!

Simply download the file you're interested in. Either convert it into the Kinko's file format (really it's just a proprietary version of the PDF format) and send it to Kinko's online, or copy to a CD or zip disk and take it to your nearby Kinko's copy center. They will do a nice, professional job for you.

Promotional Materials' Download Formats

Promotional photos are in ".jpg" and ".tif" formats. Promotional posters, fliers and table tents are available in the Adobe Acrobat PDF format.

Download and save your copy by right clicking on the file name. *Windows Users and *MAC users please see the bottom of the web page this PDF is on for help.

Why Use Kinko's?

Convenience. Kinko's seem to be just about everywhere.

Many home printers are unable to print the large 11 by 17 inch format used for the posters. Some home PC printers cannot print high resolution graphics. In either case Kinko's can print them for you affordably in the right size and resolution.

One more thing—Comedy Hypnotist BLAZE loves it when you contact us about:

- Questions about Shows or Products: We'll get right back to you.
- Testimonials & Results: You let us know what made you laugh!
- Entertainment Ideas & Resources: We're delighted to hear from you.
- Suggestions for Improvement: Ask about anything in our control.
- Questions about hypnosis: We get lots of questions about this, so fire away!

Thank you.
