

BLAZE

Stage Plot

The above stage plot is the ideal setup and is presented here for reference purposes only. Please talk with BLAZE or his representative about your stage or staging area.

TWO IMPORTANT POINTS: (1) Professional quality stage monitors are the key difference in the depth of hypnosis attained by the volunteers and in the perceived success of the show, and (2) sturdy, ARMLESS chairs are required for the volunteers safety. Artist understands that some venues cannot accommodate this preferred stage plot setup. Still, BLAZE appreciates your best-efforts to provide this set-up whenever possible.

Thank you.
